

1. Write a Program to print the alternative characters in a given String input?
2. Write a Program to print the alternative vowels in a given string?
3. Write a program to print the biggest / longest word in a given String?
4. Write a Program to print the ASCII key values of a given String characters?
5. Write a Program to print the index of a given character in a given string?
6. Write a Program to print the last index of a given character in a given string?
7. Write a Program to print the all the index's of a given character in a given string?
8. Write a Program to print the given input in lowercase and uppercase?
9. Write a Program to print the string value from certain index to the end of the given String?
10. Write a Program to print the String value from certain index to certain index of a given string?
11. Write a Program to store the given String in character array and then print that character array?
12. Write a Program to check the given character/String in a another given String?
13. Write a Program to replace the all comma's by space in a given string?
14. Write a Program to replace the one word by another word in a given string?
15. Write a Program to split the given String into individual words?
16. Write a Program to understand the use of the trim method in strings?
17. Write a Program to understand that where we have to use == and equals Method in strings?
18. Write a Program to understand equalsIgnoreCase method in strings?
19. Write a Program to check which is first word in dictionary order of given two words?
20. Write a Program to check which is first word in dictionary order of given two words by ignoring Case?

Validations:-

21. Write a Program to check/validate given String value is Valid Aadhar Number or not?
Input1: 439876875869
Output1:Valid Aadhar Number
Input2: 43@776875869
Output2:Not a Valid Aadhar Number
Input3: jtniv9t349nc
Output3:Not a Valid Aadhar Number
Input4: 1234 5678 9101
Output4:Valid Aadhar Number
Input5: 1234567890123412
Output5:Not a Valid Aadhar Number
22. Write a Program to check/validate given String value is Valid Pan Number or Not?

23. Write a Program to check/validate given String value is Valid registration number or not of a Vehicle?
24. Write a Program to check/validate given Password is perfect or not and the conditions are Password length must be 9 characters and must at least one capital, one small, one number and one special character (except space) ?

Searching:-

25. Write a program to find the given word or a character is present or not in a given String?
26. Write a program to find the index values of a given word in a given String?
27. Write a program to find the numbers in a given String and print there index values?

Separation of categories:-

28. Write a program to count the number of Special keys in a given String?
29. Write a program to count the small letters in a given String?
30. Write a program to print the all small characters, then print the capitals character, then print the Special characters and print the numbers in a given String?

Conversions(small<->Capitals):-

31. Write a program to convert all small characters into capital characters and all capitals characters into small characters remaining characters don't disturb any thing print Directly?
32. Write a program to convert all small characters into capital characters and all capitals characters into small characters of alternative places?

Reverse of a String:-

33. Write a program to print the reverse of a given word ?
34. Write a program to print the all given words in reverse without changing words positions?

Input: to print the all given words

Output:ot tnirp eht lla nevig sdrow

35. Write a program to print the given String in reverse?
36. Write a program to find the given String is Palindrome or not?

Frequency / occurrence / Duplicates:-

37. Write a program to find the count of each and every word in a given String?
38. Write a program to find the count of each and every character in a given String?
39. Write a program to print most repeated character and word in a given String?
40. Write a program to print the words in given string to the count (Repetition) in decreasing order?
41. Write a program to print the unique words in a given string?
42. Write a program to print the smallest Unique word in a given String?
43. Write a program to print the largest Unique word in a given String?
44. Write a program to print the words and count of the duplicate words in a given String?

subStrings:-

45. Write a program to print all substrings in a given string?
Input: java
Output: j, ja, jav, java, a, av, ava, v, va, a
46. Write a program to find the given substring is there or not in a given String?

Sortings:-

47. Write a program to print all words in decreasing order (word size) of a Given String?
48. Write a program to sort the words in a given String according to alphabetically (lexicographically)?
49. Write a program to print the "N" number of times repeated word in a given string?
50. Write a program to print all characters in alphabetical order in a given string with repetition?

Use Cases:-

51. Write a Program to print the common words in a given two Strings?
52. Write a Program to print the common Unique words in a given two Strings?
53. Write a Program to print all the words in a given two Strings by one time only?
54. Write a Program to print all the words in a given two Strings in sorted order?
55. Write a Program to print the given String as three characters in each line?
56. Write a Program to print the given String characters as shown in example?

Ex:- Input:- I am preparing myself for MNC's and Product based companies.

Output:-
I
am
pre
pari
ngmys
elffor
MNC'san
dProduct
basedcomp
anies.
